Description:

What happens when we make digital humanities public? What about when we take the public humanities and make them digital? This course will explore the history, theory and methods of the digital humanities and the public humanities and, especially, their intersection. We will use and critically examine digital tools like Omeka, mapping software, content management systems, and social media to put theory into practice. By the end of the semester, students will have conceptualized a digital public humanities project, written a grant application for potential funding, and built a prototype.

Expectations:

- This course will expect you to engage deeply with readings on the history, theories, and methods of the public and digital humanities while also applying those materials to work with digital tools on public projects. Come to class having read the materials and prepared to discuss them.
- You are not expected to have any specific technical knowledge before coming to this class. You are expected, however, to be an independent learner who will attempt to solve problems.
- You will be expected to respond to emails from me in a timely manner. Because we only meet once per week, it will be necessary for me to communicate with you by email outside of class. I recommend strongly that you link your Rutgers email account (which is what is connected to Blackboard) to your personal email so that you are sure to get all the emails that I send.
- If you have a laptop, please bring it with you to class.

Objectives:

By the end of this course, students will have:

- Become conversant with the literature in the public humanities and the digital humanities, understanding the major issues, theories and methods of each;
- Learned new digital technologies, used them for public projects, and critically analyzed them;
- Conceptualized a public digital humanities project, including developing a prototype;
- Written a grant proposal.

Assignments:

- **Blog Posts Reading Responses**: Using the course website, you will be expected to write a response to readings and labs several times throughout the semester. These posts should engage with one or more of the readings or connect the lab work with readings. These are due by Monday at 12pm. You should also read your classmates’ posts and comment on at least one each week.
- **Analysis of a Digital Public Humanities Project**: More information to be distributed later.
Lab Session Assignments: After each lab session, you will have additional work to practice the skills we learned.

Digital Projects for the Public Proposal: The cumulative project for the semester will be for you to conceptualize a digital public humanities project and write a grant proposal to fund it. We will use the NEH’s digital projects for the public application as our guide. This project will be completed in several steps with peer review.

Attendance and Participation:

You will be expected to attend class having completed readings and assignments and be prepared to actively participate. If you cannot attend class, please let me know at least 24 hours before class (except in the case of emergencies).

Academic Integrity:

You will follow the University’s Policy on Academic Integrity, which falls under the Code of Student Conduct. The policy and the consequences of violating it are outlined here: http://www.ncas.rutgers.edu/office-dean-student-affairs/academic-integrity-policy.

I strictly follow the University’s rules regarding plagiarism and other academic irregularities. Please consult me if you have any questions about what is and is not appropriate regarding the use of sources or citation.

Grading:

- Participation, Peer Review, and Attendance: 15%
- Blog Post Reading Responses: 20%
- Analysis of a Digital Public Humanities Project: 20%
- Digital Projects for the Public Proposal: 25%
- Lab Assignments: 20%

Late Assignments:

I expect assignments to be completed on the day they are due. Any late submissions without an approved excuse will lose a half-grade every day it is late.

Required Texts:

There are two required books for this course:

- Bill Adair, Benjamin Filene, and Laura Koloski, Letting Go?: Sharing Historical Authority in a User-Generated World. (Pew Center for Arts and Heritage, 2011)

Other readings are either linked below, available through Rutgers Library (tagged RL), or on the blackboard site for our class.

Disability Statement

Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: https://ods.rutgers.edu/students/documentation-guidelines.
If the documentation supports your request for reasonable accommodations, your campus’s disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: https://ods.rutgers.edu/students/registration-form. For more information please contact Kate Torres at (973)353-5375 or in the Office of Disability Services in the Paul Robeson Campus Center, in suite 219 or by contacting odsnewark@rutgers.edu.
